

GONGZHENG
AUTO PARTS FACTORY

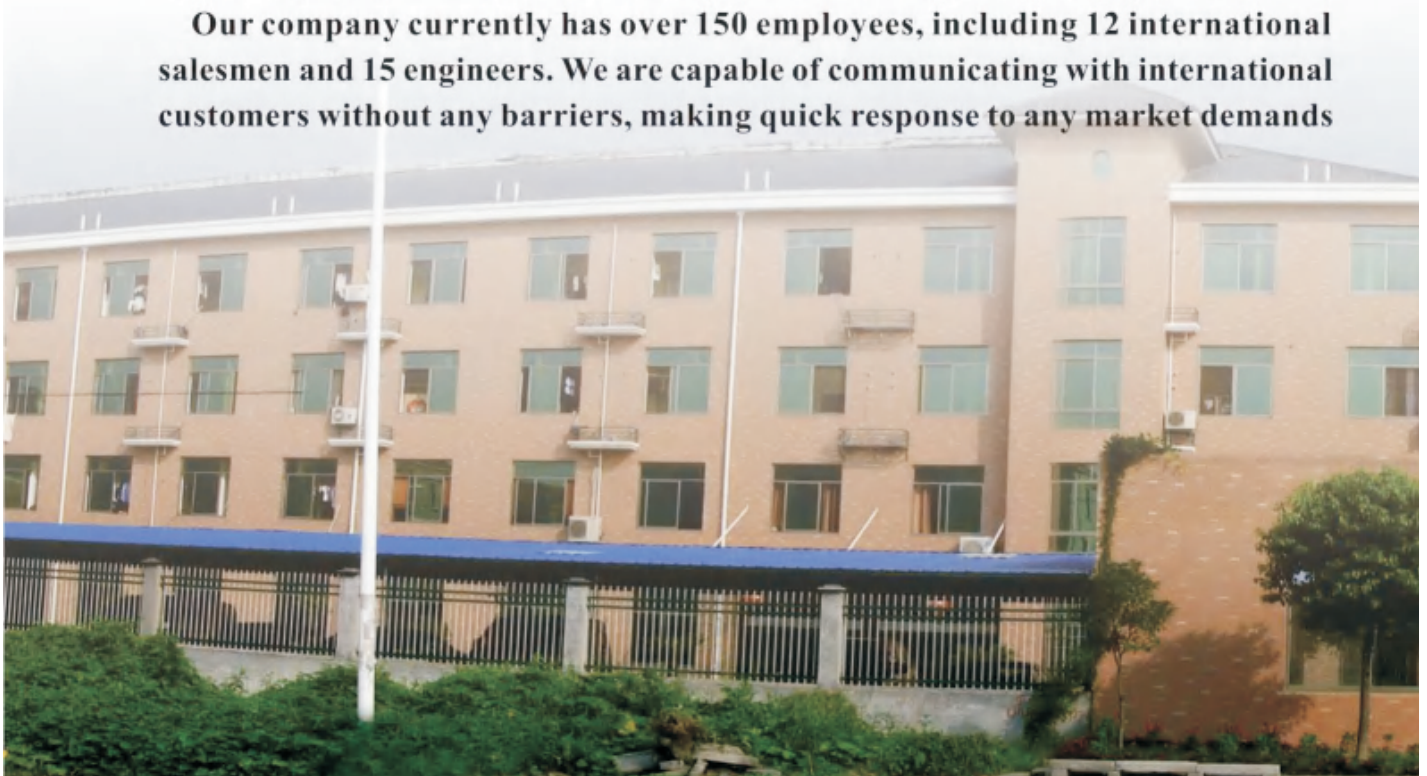

Introduction

Zhejiang Gongzheng Auto Parts Factory is a manufacturing plant located in Zhuji, Zhengjiang, China. We specialize in producing components of the air brake system for commercial vehicles since 1990. The production base occupies a land area of 26600 square meters, including factory buildings and office area for a total construction area of 38000 square meters.

Our factory has production lines for the complete production process of our products, including Die-casting, Machining, Cleaning and Surface treatment, Stamping, Welding, Assembling, and Packing. And we also have laboratories for the research and inspection of the materials and product functions. More than 170 primary operating equipments , 80 auxiliary operating equipments , and 70 test equipments are applied in daily production.

Our company currently has over 150 employees, including 12 international salesmen and 15 engineers. We are capable of communicating with international customers without any barriers, making quick response to any market demands

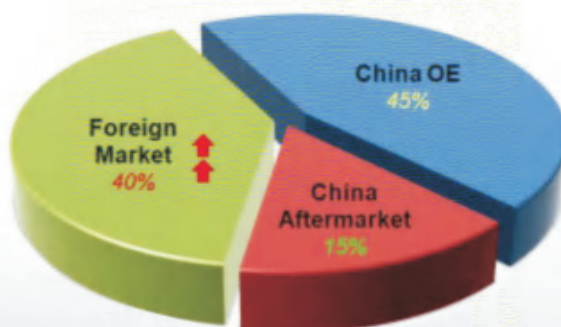

and service requirements. And our abilities of research, design and new products development is quite competitive in both domestic market and international market. With experienced engineers, skilled operators and specialize production lines, we have a total capacity producing 20000 brake chambers, 8000 air dryers and 40000 brake valves every month, with guaranteed quality.

At present our products are supplied to China OE and sold to international aftermarket for the most part. Each of the two main markets took up about 40% of our total sales in 2022. The domestic OE we are supplying to include CNHTC, Foton Daimler, FAW, JAC etc. And our international aftermarket bussiness partners come from Europe, Turkey, South and North America, Middle East and South Africa.

Sale in 2024
